HARMONIZED SYSTEMS

Clinical chemistry, immunoassay and integrated systems to transform your laboratory.

CHOOSE TRANSFORMATION™
Achieve measurably better healthcare performance.
CORELABORATORY.ABBOTT/ALINITY
Your vision. Our innovation. Designed for you, by you.

Alinity is Abbott’s next generation of systems, across key laboratory disciplines, designed to simplify diagnostics and help you deliver results that drive better patient management. With Alinity, critical interactions between individuals, systems and information are streamlined, enabling you to redefine performance in your laboratory and your institution.

ACHIEVE MEASURABLY BETTER HEALTHCARE PERFORMANCE.

*Alinity m is in development and not commercially available in the U.S. for diagnostic use. Alinity s is not cleared in the U.S. Alinity hq or hs are not commercially available in the U.S.

i-STAT Alinity is not commercially available in the U.S.

**Alinity**

**Alinity CI-Series**

Introducing clinical chemistry, immunoassay and integrated systems to transform your laboratory

The Alinity CI-series consists of compact, scalable systems to maximize throughput and efficiency, making today’s high-performing laboratories run at their best, today and into the future.

**KEY FEATURES**

- **Uniformity**
  - Thrive in a World of Consolidation
  - Enable a truly harmonized healthcare system

- **Flexibility**
  - Adapt to Changes in Healthcare
  - Respond to the changing needs of the market and your community with the right capital investment

- **Operational Productivity**
  - Improve Management of Patient Flow
  - Leverage lab technology and data to redefine and improve operational productivity

- **Confidence**
  - Minimize Clinical and Financial Impact of Medical Errors
  - Quality test results can save lives and reduce the financial impact to your hospital system

**COMMON USER EXPERIENCE**

Improve the value your laboratory brings to your organization.

With an emphasis on user-driven design, the Alinity CI-series offers an intuitive and universal experience with other Alinity systems, so your staff can easily transition from one system to the next.

**User-Driven Design**

- Loading samples and reagents, prioritizing STATs, replacing solutions, and utilizing the user interface are just a few of the critical interactions that are consistent across systems.

**Achieve Measurably Better Healthcare Performance. Alinity CI-series**

*Alinity m is in development and not commercially available in the U.S. for diagnostic use. Alinity s is not cleared in the U.S. Alinity hq or hs are not commercially available in the U.S. i-STAT Alinity is not commercially available in the U.S.*
SCALABILITY AND MAXIMIZED THROUGHPUT

Realize the full potential of your existing resources, optimize your performance, now and in the future.

In today’s uncertain environment, labs need to be able to quickly adapt to daily changes, as well as plan for the long-term to ensure consistent delivery of services. The flexible and scalable Alinity ci-series offers increased throughput and capacity, allowing you to easily add modules as your volume grows, without replacing your current systems. Integrate up to four* modules of multiple clinical chemistry and immunoassay combinations, all controlled by a single system control module.

PERFORM MORE TESTS PER SQUARE FOOT

Even when faced with limited space and resources, Alinity can more efficiently and effectively process increased volumes in a compact footprint. Innovative engineering, combined with the Alinity ci-series space-saving design, which stacks reagent storage and sample processing areas, increases throughput without compromising space.

QUALITY ASSAY PERFORMANCE

Greater confidence for your lab operations

You face pressure every day to provide accurate and timely results. Our broad menu in development of differentiated assays delivers consistent, commutable results across platforms that may improve clinical decision making and patient outcomes.

- Alinity ci-series assays in development are harmonized to Clinical and Laboratory Standards Institute (CLSI) guidelines, ensuring clear performance parameter definitions.

THE VALUE OF PROVEN TECHNOLOGY

ICT MODULE
A single simple-to-install, integrated chip generates Na+, K+, and Cl− results with CVs of 1% or less. Each module delivers 60,000 determinations, and maintenance is automated.

FLEXRATE
Extends the linear ranges of enzyme assays for better first-time results and fewer repeats.

CLOT AND BUBBLE DETECTION
Sample pressure differential technology can detect bubbles, foam, and clots to confirm sample integrity and aspiration accuracy.

CHEMIFLEX
A refined chemiluminescence-detection technology with flexible assay protocols, combined with optimized assay design, provides enhanced assay performance.

SMARTWASH TECHNOLOGY
SmartWash technology prevents clinically significant sample-to-sample carryover (≤0.1 ppm) and eliminates the need for additional consumables.

SAMPLE INTERFERENCE INDICES
Measurement of hemolysis, icterus and lipemia levels reduces the risk of reporting incorrect results due to interference.

ACHIEVE MEASURABLY BETTER HEALTHCARE PERFORMANCE. Alinity ci-series

*In development and not commercially available. For illustrative purposes only.
**Faster. Simpler. Smarter.**

Simplify and streamline interactions with systems thoughtfully designed around the way you work.

---

**ALINITY CI-SERIES**

---

**Thoughtfully designed around the way you work**

The Alinity ci-series offers innovative user-driven design with powerful features that deliver **uniformity, flexibility, operational productivity** and **confidence**.

---

**SYSTEM SOFTWARE**
Seamlessly work across systems with common, intuitive, easy-to-use software.

---

**REAGENT AND SAMPLE MANAGER**
Deliver samples, reagents and other solutions to any module with a single random-access robotic transport system without compromising STATs.

---

**ERROR-PROOF REAGENT LOADING**
Prevent reagent mix-ups, retesting and probe crashes with built-in safeguards.

---

**ONBOARD CALIBRATORS AND CONTROLS**
Load bar-coded calibrators and controls at any time, store them on the system, and automatically run them at user-defined intervals.

---

**DEDICATED PRETREATMENT PATH**
A dedicated pretreatment path allows continuous processing of routine and STAT immunoassays without compromise to turnaround times.

---

**CONTINUOUS ACCESS TO REAGENTS AND SUPPLIES**
Continually load and unload supplies, no need to stop or pause the system. Load on the fly while the system continues to run.

---

**SYSTEM CONTROL MODULE**
Control up to 4 integrated modules from a single control unit.

---

**INCREASED LOAD-UP CAPACITY**
Load up to 150 samples and up to 70 clinical chemistry or 47 immunoassay reagents per module.

---

**ACHIEVE MEASURABLY BETTER HEALTHCARE PERFORMANCE.**

Centralized management designed across your Alinity systems

Together with your Alinity systems, Alinity PRO is designed to fully maximize your systems’ potential. Alinity PRO software works with Alinity systems to enhance operational productivity throughout your network, allowing for easier and consolidated system monitoring anytime, anywhere.

Designed With:

CONSOLIDATED REAL-TIME DASHBOARDS
- Remote dashboard capabilities enable staff to capitalize on system “walkaway time” via immediate notifications.

“PLAN MY DAY” – CHECKLISTS
- Forward-looking “Plan My Day” checklists help minimize planned downtime.

INFORMATICS

Designed to share reagents between systems and reduce waste.
- Reduce waste and inventory management by enabling staff to seamlessly transfer inventory between systems.

ABBOTT DIAGNOSTICS

Achieve measurably better healthcare performance with our personalized solutions.

We’ve reengineered our entire organization to support you and your changing needs, helping you achieve measurably better healthcare performance with our personalized solutions:

**RESOURCEFUL ADVOCATES**
Expert teams take a holistic, enterprise-level view to develop personalized solutions for your lab.

**HARMONIZED SYSTEMS**
A harmonized family of innovative systems, assays, informatics and automation solutions streamlines your lab operations.

**INTELLIGENT INSIGHTS**
A suite of professional services, supported by informatics enablers, unlocks intelligent insights from your valuable data.

HARMONIZED SYSTEMS

A unified, holistic family of systems delivering unprecedented integration

**UNIFORMITY** to thrive in a world of consolidation

**FLEXIBILITY** to adapt to changes in healthcare

**OPERATIONAL PRODUCTIVITY** to improve performance and workflow

**CONFIDENCE** in your ability to minimize the clinical and financial impact of medical errors
